PROFESSIONAL SUMMARY

I am a Computer Science graduate and web developer with practical experience in modern frontend development using React, JavaScript, HTML, and CSS. Passionate about open-source technologies, intuitive user experiences, and responsive web interfaces. Backed by technical IT support background and professional working English proficiency, ready to contribute to distributed global engineering teams.

TECHNICAL SKILLS

- **Frontend & Web Development:** React, JavaScript, HTML5, CSS3, Tailwind CSS, Responsive UI Design, REST APIs.
- **Languages & Tools:** Python, PHP, MySQL, Git, GitHub, Linux (Ubuntu/Debian basics).
- **AI & Productivity:** AI-assisted coding, rapid prototyping, Figma, Canva, Microsoft 365, Google Workspace.
- **Systems & IT Operations:** Workstation setup, software configuration, troubleshooting, technical documentation.

ACADEMIC & PERSONAL PROJECTS

- **Find Ace Local Service Marketplace** | React, Laravel 8, PHP 8, MySQL, Tailwind CSS, Leaflet
    - Developed a full-stack service marketplace featuring role-based workflows (Client, Worker, Admin), authentication, and job-status tracking.
    - Integrated Leaflet maps for location-based service discovery and implemented administrative controls.
- **Eco Tech - Household Food Waste, Calorie & Carbon Web App** | React, Python Flask, MySQL, Scikit-learn, OCR
    - Built a full-stack web application for inventory, carbon-impact analysis, and expiration tracking using React and Python Flask.

- **Digit tech** | Next.js, React, TypeScript, Tailwind CSS, Node.js, PostgreSQL, Supabase
    - Designing and implementing a C2C marketplace platform for PC hardware specification verification and secure digital game account trading.

WORK EXPERIENCE

- **IT Assistant / Office Desk Support** | Aung Thamardi Gold and Jewelry (Mandalay, Myanmar) — 1 Year
    - Provided first-line technical support, system maintenance, and network troubleshooting for office workstations.
    - Handled hardware setups, software installations, application patching, and standardized technical issue reporting.

- **Freelance Graphic Designer** | Self-Employed (Remote) — 5 Months.
    - Delivered detailed visual content and marketing collaterals using Figma, Canva, and Adobe tools.

- **Freelance Computer Teacher** | Self-Employed (Mandalay, Myanmar) — 5 Months
    - Conducted practical courses covering software applications, OS navigation, and system maintenance best practices.

EDUCATION

- **Bachelor of Science (Hons) in Computer Science** — University of Wolverhampton / Strategy First International College.

- **Level 5 Diploma in Computing** & **Level 4 Diploma in Computing** — NCC Education.

- **High School:** Passed Grade 10 with One Distinction (Economics).

LANGUAGES

- **Burmese:** Native

- **English:** Professional Working Proficiency (C1)
